ABOUT US

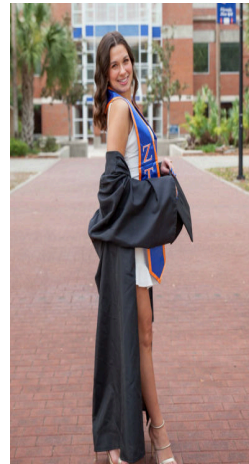

Kids' Chance of Florida, Inc. is a nonprofit 501(c)(3) tax-exempt organization founded in 2015 by professionals who have an affiliation with workers' compensation in our state.

Kids' Chance of Florida is governed by an all-volunteer board and raises funds for scholarships through donations from individuals, corporations, foundations, and other organizations active in workers' compensation matters.

OUR MISSION

The mission of Kids' Chance of Florida is to provide scholarships to educate children of Florida workers who have been killed or seriously injured in work-related accidents resulting in financial need at the college, university, or vocational level.

ELIGIBILITY REQUIREMENTS

Any student between ages 16–25 whose parent(s) had an on-the-job death or serious injury associated with a FL Workers' Compensation or Longshore/Harbor Workers' Compensation claim, that resulted in a substantial decline in family income, not less than 12-months, may be eligible for a one time or subsequent year scholarship award if successfully meeting academic standards and guidelines outlined in the online application.

The number of scholarships awarded is dependent on available funds and may vary from year to year. Kids' Chance scholarship recipients must reapply each year.

\$1 MILLION RAISED

Kids' Chance of Florida has reached an incredible milestone—surpassing \$1 million raised since 2015!

We are proud to celebrate this achievement and, more importantly, the positive impact of the fundraising efforts on the lives of so many students. Every dollar raised helps provide educational opportunities and brighter futures for children of workers who have been seriously or fatally injured on the job.

Thank you to all of our generous donors, sponsors, volunteers, and supporters who have helped make this milestone possible. We are incredibly grateful for your continued commitment to the mission of Kids' Chance of Florida!

PLANNING FOR THE FUTURE

When a worker is killed or seriously injured on the job, everything changes. For the family left behind, dreams of college or a career can feel uncertain—or even impossible.

The Kids' Chance Planning for the Future initiative helps identify these students early, so when the time comes for higher education or trade training, they're ready.
